## Opportunities to support the 44th Annual Pancreas Club Meeting Saturday & Sunday, May 1 & 2, 2010 New Orleans, LA

The Pancreas Club is not a traditional academic society. At the time of the founding of the Pancreas Club in 1966, the medical and surgical environment was inhospitable to the study of the exocrine pancreas by surgical investigators or surgical trainees. The Pancreas Club was borne out of the need of its members to share ideas with other colleagues having similar interests and benefit from their feedback. Out of this shared experience, a sense of fellowship developed among the members of the Pancreas Club, which persists to this day. Since 2008 the Annual Meeting has been jointly sponsored by the American College of Surgeons Division of Education and *AMA PRA Category 1 Credits™* are assigned to the activity.

For the past 43 years, the attendees at the Annual Meeting have presented the cutting edge of pancreas research from institutions around the world. Support from commercial entities as exhibitors and through educational grants is now necessary in order to continue this popular and informative meeting. Won't you help the Pancreas Club this year!
